

DAILY NEWS

THURSDAY, JANUARY 15, 1880.

GEO. C. JORDAN, Editor and Proprietor.

If the compilers of cable news on the other side can bring it about, war is to be the outcome of some of the present European complications. Fortunately the outlook is not always as sanguinary as these industrious gentlemen see it.

The news of Senator Lamar's illness, in Mississippi, will be received with unfeigned regret in all parts of the country. No man has labored more earnestly or more effectually than he in behalf of nationalism as against sectionalism since Mississippi sent him back to the public councils. By his abilities and by his character he has won, in an unusual degree, the esteem and confidence of good men of all sections and of all political opinions, and all good men will unite earnestly in the hope that the story which came in our telegrams may prove to have been exaggerated. Senator Lamar has been in feeble health for a long time, however, though there has been no especial reason, we believe, for apprehending such an attack as is reported.

BEFORE Senator Morgan, of Alabama, gets through preparing his next speech in the Senate against Mr. Bayard's resolution, he will do well carefully to examine the opinion of the Supreme Court in 1868, which declared that greenbacks were not money but merely "obligations" of the United States government, and that as such they cannot be taxed by a State in the hands of a citizen and resident of the State who is liable to taxation on other property in his hands. Senator Morgan will perhaps perceive that whenever assessment day comes around, any tax-payer has only to put his personality into greenbacks and go tax free. His gold and silver coins are taxable by the State, for they are money, but not his greenbacks. Does Senator Morgan wish to perpetuate this power of tax-shrinking?

THEIR OWN MEDICINE.

Never before in our history has an armed man been seen within the walls of that building, deviated by our fathers to order, law and peace. It is a great public scandal that the very portals of a building thus consecrated should be closed to the public, and the passwords, inspections and signals are requisite to admission within its walls. Free laws cannot be enacted under the pressure of armed forces, and it is a cruel mockery for the Legislature of Maine to assemble with such surroundings.—*Maine Exchange*.

Have these Maine Republicans forgotten how they shouted with joy when the "Upstarts" bayonets and sabres changed in the State Houses of Louisiana and South Carolina in the memorable year of 1857? They are but receiving a taste of their own political and despotic knavery. Did they not declare, with insulting gests and malignant gratification, that these very arbitrary means were indispensable in the political economy of the South? Constitutional liberty with them was but a fanciful picture of the imagination—a beautiful antiquated dream. Perhaps this *coup d'état* of the dauntless Garcelon will make these fire-eaters a little more considerate in the future, and cause them to learn, as they do not seem to understand, what a pure Republican form of government means.

A CHANGE NEEDED.

In view of the general imbecility and corruption which characterize the Indian service, says the Philadelphia *Record*, and which appear to be inseparable from its connection with the Department of the Interior, it would manifestly be wise to place the whole administration of Indian affairs under the direction of the War Department. Much credit is due to Secretary Schurz for his humane and well-meant endeavors in behalf of the aboriginal tribes, and it is possible that his carefully-matured policy might have been successful had not nearly all the civilians, from the highest to the lowest, who were relied on to execute it turned out to be unconscionable and unmitigated scoundrels. The baseness of Indian agents and traders is proverbial, and the apparent invertebrate treachery of the Indians, which it is difficult to account for in any other way, is no doubt largely due to the persistent swindling and despoliation to which they have been subjected. Another investigation is now on foot. Serious charges have been made against Mr. Hayt, Commissioner of Indian Affairs, and a committee, appointed to overhaul his methods, is already at work. Other committees are to examine into complaints relative to the management of the Indian Bureau, in which it is charged that there is no small degree of misconduct, ranging all the way from neglect of duty to positive malfeasance. It is quite evident that a reform in the dealings of the Government with the Indians can be effected in a satisfactory and permanent manner only by a thorough change in the existing system.

District Government Affairs.

Washington Star, 13th.

District Commissioners Dent and Morgan spent most of the morning looking to-day before the House committee on the District of Columbia, in the necessity for the appropriation of \$29,000 for filling up the old canal, and there is a fair prospect of the passage of the joint resolution for that purpose.

The joint resolution for the District of Columbia will be introduced in the House at the first opportunity, so that it can be printed and re-committed. It will make a document of over one hundred pages.

Inspector Entwistle and his assistants are engaged in the preparation of the two plans and specifications for the new school building on Massachusetts avenue, for which bids will probably be invited by advertisement to-morrow. The two new school rooms in the Northeastern market house have been prepared, and are now ready to be occupied. The room which is to be occupied by the school has been abandoned, and the school transferred to the room formerly occupied by the Sailors' and Soldiers' Orphans' Home, on G street, between 17th and 18th streets, which has been leased for public school purposes.

The Independent Vote.

Springfield Republican.

The vote of 10,000 independent republicans in Ohio cast against a republican candidate in 1880 would make that state hopeless to the republicans; the vote of 5,000 independents in New York, cast

the same way would do the same. 1,500 discontented republicans would make Connecticut Democratic. About how much does this leave of the Grant boom?

POLITICAL NOTES.

A tour through the West and South is suggested to Mr. Tilden, by the Cincinnati *Enquirer*, as the best way to start the boom which he seems to be looking for.

The Detroit *Free Press* sees this good in the Maine middle—it has aroused public attention, as nothing else could have aroused it, to one of the worst dangers that threatens our governmental system.

Denis Kearney's national platform is summed up in the New York *Star* in this wise: 1. Greenbacks must cease spouting. 2. The White House must be captured. 3. All Republicans and Democrats must be buried in the sub-cellars of hell."

The State Senate of Kentucky overwhelmingly defeated the bill authorizing women to vote on the law. One of the leading senators remarked that "Kentuckians are too conservative to allow the better half of creation to unsex themselves, or to make any movement in that direction, whether in the hustings or in the court-houses."

Why take Grant? Has the Republican party become so degenerate as to have put one man in fit for President? An acknowledgment so humiliating could only be made by toadies and sycophants. It has not so degenerated. There are many sober and intelligent and cultured gentlemen who have had years of experience in public life far superior to that of Grant; and they will be sent postage paid by addressing Patapsco Baking Powder factory, 118 S. Eutaw St., Baltimore.

The proprietors and patentees of Patapsco Baking Powder have issued for gratuitous distribution a valuable cook book entitled "Housekeeper's Friend." Ask your grocer for one of them; or they will be sent postage paid by addressing Patapsco Baking Powder factory, 118 S. Eutaw St., Baltimore.

The Cincinnati *Commercial* in a recent issue, publishes an account of how more than half a ton's weight of General Andrew Jackson's military papers, having reference to his campaign at New Orleans, was discovered by accident, during the past year, at a printing office in this city, and at a country residence near town. These papers have been lying *perdu* since 1845, moldering as it were, and accumulating the dust of decades. Among the papers found in a chest at the house in the country residence, the author of the paper writes, "I have never seen any paper written by General Jackson. His date is May 20, 1845, and Jackson died on June 8th of the same year.

As to candidates on the Republican side, the men who have opposed the present administration appear to favor Grant, and his strongest opponent now is Blaine. The two candidates are nearly equal, Blaine being too much of a Republiican to submit to his party. The Republiican party does not like violent men in office, though it always prizes them for their boldness in the fight. Morton, Chandler, Blaine and men of that stamp were never in 1876, and a man of middle and even less middle age, known man from Ohio was picked up and made President. This is likely to be done again.—*Hartford Seymour*.

The Presidency in Indiana.

The Indianapolis *Journal* sent out several telegrams to all the active and pronounced Republicans of the State, requesting each to indicate his first choice for President. Nearly all who were addressed made replies. The final result is as follows:

For James G. Blaine 1,882
" U. S. Grant 1,600
" John Sherman 1,353
" R. B. Hayes 87
" E. B. Washburne 71
" J. A. Garfield 37
" R. W. Thompson 12
" Schuyler Colfax 18
" Benjamin Harrison 16
" P. B. Brown 11
" George C. Frenmont 6
" W. T. Sherman 6
" Alex. Ramsey 3
" John A. Logan 3
" Geo. F. Edmunds 10
" J. M. Hawley 2
" W. A. Wheeler 3
" Frederick Douglass 1
" R. J. Oglesby 1
" Newton Booth 1
For nominee, or expressing no preference 198

Total 5,328

Commenting editorially upon the results, the *Journal* says:

The strength of Sherman among the Republicans of Indiana is a great surprise to many, and especially following the recent news do so soon after his report recommending the legal-tender quality of the greenbacks as to all contracts made subsequent to the passage of the act. It is also a noteworthy fact that a large number of those who are opposed to Sherman's nomination for their opposition mainly to his want of availability, and the class that prefers him as a nominee are largely business men, and not the most active in politics.

It is matter of still greater surprise to advocates of Grant's nomination that the opposition to him is so great, and mainly based on a conscientious opposition to a third term.

Kearney's advice to all parties is to "pool their issues." We think a good deal as he does, that we should bury the dead issues of the past. As a healing compound for all issues, sores, wounds &c., there is nothing equal to Henry's Carbolic Salve. Beware of counterfeits.
